Sorry for all of the emails today. I forgot to check with you to see if this is on Mary's calendar and/or if she needs us to cover for her?

Becky,

We need to try to get an briefing paper to Mary on this and ask her if she is going to take the options selection call or if we should take it on her behalf (I would first check to see if it is on her calendar or Beverly's). Generally, we also need to route the memo that is required. They like to sign that before the call; however, I am not sure what we can do given that options don't seem to have been selected at this point.

Just see what you can figure out with Tom and try to get the ball rolling on this one.

Hello, Jeaneanne –

The second round of options selection for the 404(g) assumption rulemaking effort is coming up next week, and we are sharing the workgroup recommendations made thus far on the five topics at hand. Will you or Mary be representing R4 on the call Tuesday (12-1)?

As Kelly noted, the development of options continues to evolve, even at this date. There is potential that some of these options tables will change following an additional briefing with Dave Ross this afternoon.

Ex. 5 Deliberative Process (DP)

Ex. 5 Deliberative Process (DP) after the call (and Kelly notes that he would likely defer to the workgroup recommendation if they choose a different option). Kelly will forward any new tables ASAP.

Ex. 5 Deliberative Process (DP)

When there is one option bolded in the table, Kelly is on board with that workgroup recommendation. For tables with more than one option bolded Kelly has highlighted his recommendation.

As with the previous round, we are happy to provide more information if needed. Please do include Kelly if you have any questions, as he represents us on this rulemaking workgroup and has much more in-depth knowledge of the issues. I'm heading out on leave shortly, but can be reached by phone today; I'll be back on email tomorrow.

~ Rosemary

When there's one bolded option I'm on board with recommendations. For those with more than one option bolded I've highlighted the one I would recommend and reattached all the options tables with those changes.

FYI there is potential that some of these options tables will change following an additional briefing with Dave Ross today.

Ex. 5 Deliberative Process (DP) after the 404 g call this afternoon (I've highlighted my current recommendation but if the workgroup choose a different option I would defer to the group). If I get word from Kathy that is the case I will forward the new tables ASAP.

Thank you, Kelly. Are you on board with the bold options indicated by the work group? Where there are multiples, do you recommend one over the others?

Importance: High

Just wanted to follow up on my email from 4/30. Options selection #2 is scheduled for next Tuesday so if briefing beyond just supplying these option papers is needed we are running short of time. Also I've attached an updated table for

Ex. 5 Deliberative Process (DP)
--

. Also, I've been asked to confirm if DD or RA will be representing Region 4 on the call Tuesday.

The options selection meeting for the second half of issues is currently scheduled for May 12. I've attached the tables for the 5 issues above. The bold options are those the 404(g) team felt were best. In some cases there are multiple bold options, in those issues the workgroup either were split in how to move forward or felt the options were equally acceptable and wanted to raise multiple options to leadership. I believe all of these are pretty self-explanatory but I'd be glad to answer any questions I can. My recommendation is we forward the documents to Jeanneane and Mary and only schedule a briefing if something is unclear or they'd like more info. This is how we handled the first options meeting and I believe it worked well.
